Pack your bags and join us for an internship or graduation project overseas

Young Professionals Overseas (YPO) can offer you a challenging stay in India, South Africa or Zambia. This implies leaving the security of shared values and attitudes at home to often be confronted by totally new ones overseas. As a student you will benefit from a lifetime experience overseas while developing international skills and knowledge in a professional context. You will not only learn about the new country and culture, but you also learn a lot about yourself.

“ You realize what’s really important in life. You learn to adapt. You become independent and you get a confidence boostTara

Why choose YPO?

YPO strives for interdisciplinary interaction, reliability and quality. It means that YPO sends you well prepared abroad by organizing useful personal and group meetings. Furthermore, we provide advice for a secure and healthy stay overseas and we support you with assembling necessary travel documents. During your stay overseas you will not be on your own. YPO staff members will visit you once you are settled at your organization. We focus on your state of adaptation,

your well-being, your project(s), your competencies, the workload, manner of supervision etc. YPO is an international programme of Zuyd University of Applied Sciences and is run as a student company. That implies that both teachers and students form a team during all the processes of the placements.

“ This traineeship was really an eye opener for me and turned my life upside down. I would definitely do it all again!

Sanne
